How to login to your website

Website Support · https://missionsupport.archden.org/knowledgebase/how-to-login-to-your-website/

Getting started on editing your website?Login to your website through y our wordpress account!

Before you are able to edit your website, you'll need to gain access to your site via a ***username and password.***

When your website is done, you should receive an email with your username and a link to set up your password.
If you did not receive an email, contact our project manager at caitlin.wojtasek@archden.org.

After you set up your password, you'll now have the keys to your site!

The login page of your website is your website web address with */wp-admin* at the end. For example: *https://catholicparish.org****/wp-admin***

Enter your username and password and click ***Log In***. You now have access to edit your site!
