Cybersecurity Info and Recommended Product Pricing

As part of the Vicar General’s request for four cybersecurity controls to be put in place at all parishes and ministries, here is some additional information from Risk Management and Information Technology regarding the required survey and attestation, the cyber controls being required, a recommended product stack, and product pricing. If you have questions, please email cybersecurity@archden.org.

The chart below summarizes the end-of-life dates for the most popular versions of Windows.
